

To all music and
Mandolin lovers

Milan, 29 September 2021

SUBSCRIPTION **"MANDOLIN PROJECT" MAFFUCCI SCHOOL MILAN ITALY**

It all started with the tenacity and passion with which our Artistic Director Prof. Vittorio Naldi pursued the "mission" to train more and more young mandolinists to enrich the musical panorama of the Italian Mandolin tradition.

In the first years of our Orchestra's life, Prof. Naldi was already teaching music at the Maffucci middle school in Milan with a great following and esteem from everyone and with particular attention to young students to introduce them to the magical world of music. Since then, our entire Orchestra, taking projects to heart, sponsors and helps in various forms the training courses that Prof. Naldi offers in the school environment.

Also this year, in the Maffucci school for the eighth consecutive year, we received **40 registrations for the Mandolin course: there are so many!** Unfortunately we only have 8 Mandolins "to be offered on loan" and we don't have enough money to satisfy all requests.

These last two years of total shutdown due to Covid has brought our Orchestra to its knees, morally but above all economically.

This is why we ask all friends of the instrument (musicians, relatives, teachers, etc.) to support us in order to continue to promote musical culture in our young people.

We open a subscription asking for a "small financial contribution" to be able to continue in these school training projects.

Thank you all because only united we will make it!
